# Paper Straws

Greatview offers its customers around the globe high-quality paper straws that include paperboard from FSC™ certified sources. We continually strive to support liquid dairy and beverage producers in reducing their usage of single-use plastics and by offering environmentally-friendly paper straws alongside our paper-based aseptic beverage packaging, Greatview fulfils this responsibility.

Alleviating consumers concerns about reduced convenience associated with paper straws, Greatview's offering includes paper straws that feature an angle-adjustable elbow section, allowing the straw to be manipulated into a 'U' shape, as well as traditional 'I' shaped straws.

Specifications
